PROFILE

Full-stack developer with professional experience in enterprise application support at Accenture and independent development of end-to-end web applications. Builds with React.js, Java Spring Boot, Python/FastAPI and PostgreSQL, with hands-on experience in Google Cloud deployment, Docker, authentication and generative AI integration. Combines production troubleshooting experience with a portfolio of cloud-based applications.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, TypeScript, SQL

Frontend: React.js, Next.js, Vite, Tailwind CSS, HTML5, CSS3

Backend & data: Spring Boot, FastAPI, REST APIs, JWT, PostgreSQL, MySQL, SQLAlchemy, Supabase, Flyway

Cloud & delivery: Google Cloud, Cloud Run, Cloud SQL, Cloud Storage, Docker, GitHub Actions, Linux, Nginx; Azure and AWS

AI & tools: Gemini, Vertex AI, LangChain, Git, Maven, Postman, Swagger/OpenAPI, Tomcat, WebLogic, IIS

PROFESSIONAL EXPERIENCE

Accenture | Associate Software Engineer

Aug 2023 – Present | India

- Provide L1/L2 application and middleware support across Tomcat, WebLogic, IIS, Linux and Windows enterprise environments; troubleshoot incidents within defined SLAs.
- Analyze logs, application behavior and configuration to diagnose deployment, connectivity and server issues and investigate recurring incidents.
- Perform application/server restarts, deployment support, SSL certificate renewals, security patching and production maintenance.
- Coordinate with application and infrastructure teams during OS patching, high-priority incidents and production changes; validate application health after maintenance.

INDEPENDENT DEVELOPMENT PROJECTS

SkillSync AI — AI-Powered Career Assistant

React.js · Tailwind CSS · FastAPI · PostgreSQL · Gemini · Google Cloud Run

Live: skillsync-ai.in

- Built a career assistance platform for PDF resume analysis, job discovery and personalized career development plans.
- Developed a responsive React frontend and Python 3.12 FastAPI backend using asynchronous SQLAlchemy, PostgreSQL and JWT-protected endpoints.
- Integrated Gemini 2.5 Flash for resume recommendations, job-description-based resume rewriting, ideal candidate profiles and skill-gap learning plans.
- Integrated the Arbeitnow Jobs API and deployed backend services on Google Cloud Run with PostgreSQL/Cloud SQL storage.

MANNETI LOKESH | SELECTED PROJECTS & CREDENTIALS

MangoTracker — Business Management Platform

React.js · Spring Boot 3.4 · PostgreSQL · Supabase · Docker · GitHub Actions

- Built a three-tier platform for seasonal mango operations, covering harvesting, labor, purchases, sales, expenses, payments and wastage.
- Designed relational data models and financial/dashboard APIs for inventory, sales, expenses, profit and operational reporting.
- Implemented authentication, authorization, season-date checks, transactional integrity, DTO validation, Flyway migrations and OpenAPI documentation.
- Containerized the backend with multi-stage Docker builds and added GitHub Actions CI/CD; deployed using Vercel, Railway and Supabase.
- Validated the completed MVP backend with 87 of 87 integration tests passing.

Personal Finance Tracker with AI Chatbot

React.js · Java Spring Boot · PostgreSQL · Google Cloud SQL · Cloud Storage

- Built a full-stack finance application to track income, expenses and transactions using a responsive React interface and Spring Boot REST APIs.
- Integrated PostgreSQL on Google Cloud SQL, Cloud Storage and a chatbot interface for finance-related queries.
- Achieved a Top 5 position in the Google Build & Blog Marathon with this project.

Chocolate Zone — Online Food Ordering Platform

Next.js · TypeScript · Tailwind CSS · Supabase · PostgreSQL

- Built a mobile-first chocolate and dessert ordering application with product catalogs, categories, variants, offers and a shopping cart.
- Designed PostgreSQL tables, constraints, indexes, triggers and Row Level Security policies using Supabase.
- Integrated a WhatsApp order submission flow and created reusable frontend components.

CERTIFICATIONS

- Microsoft Azure Fundamentals (AZ-900)
- Google Cloud Digital Leader
- Google Cloud Associate Cloud Engineer
- Java Full Stack Development Certification

EDUCATION

Bachelor of Commerce — Computer Applications

R.C. Reddy Degree College, Tirupati | 2022
